BS&A Software selects Arialink Broadband to provide gigabit fiber and hosting services

Lansing, Mich.—BS&A Software, a leader in the Michigan Municipal software market, has selected Arialink Broadband to provide hosting services and high-speed Internet through its fiber network ring.

“Their business requires that municipalities have highly available, fast connections to BS&A’s website in order to download software and software updates. With Arialink’s proven Gigabit Internet solution, BS&A Software increased its available Internet capacity by a factor of 300. Arialink is very proud to be able to deliver this service to yet another customer in the Lansing region,” said Tim Lebel, Arialink Broadband’s Vice President of Operations.

BS&A creates Windows 32 bit software packages for municipal customers and has over 1,500 current customers. 64 out of the 83 counties in Michigan use the County Equalization Software provided by BS&A.

Arialink Broadband is a leading provider in connectivity for businesses, institutions and multi-family communities. For more information on Arialink Broadband, please visit www.ariaink.com or call (517) 492-1350.
